

CRYSTAL / PEARL / SEDEF

VERTICAL MULTI-DECK

- **CRYSTAL** counts a wide range of models and versions, available in many lengths, heights and widths. Special and innovative solutions distinguish the versions for the sale of dairy products, fresh meat, fruit and vegetables.
- **PEARL** has a new design which lends it a harmonious and even slimmer shape, whereby the product displayed is brought to a huge degree of visibility. It symbolises our hardworking and expert organisation in the world of commercial refrigeration, dedicated to sustaining and promoting the protection of the environment and of the natural world through the development of products with low energy consumption.

CRYSTAL/PEARL

Length	Width	Height	Shelf	Motor type	Temp			Color
125	80/100/112	205/220	4/5	Remote	Meat	Dairy	Fruit

- Stand out features for concept building
- Designed with safety in mind
- Ideal for wide variety of food presentations
- Designed for modular configurations
- Low operating costs
- Available with double / single glazed hinged door and sliding glass door options
- User-friendly
- Simplified maintenance
- Easy access and ergonomic design
- Designed for modular configurations
- Large display area
- Easily adapted to retrofit project

- Refrigerated vertical cabinet with %100 transparent and fully energy free glazing door (combined with the use of low energy consumption electronic fan motors) is built with the most advanced energy saving technologies. it ensures:
 - %48 reduction on refrigeration electrical energy consumption (REC) compared with the open version of the same cabinet.
 - Better temperature levels in the food.
 - Better quality preservation.
